

NATIONAL GEOSPATIAL-INTELLIGENCE AGENCY

U-001-04/OST

13 April 2004

Mr. Jose Alcorta
Secretariat, ISO/IEC JTC1/SC 24
British Standards Institution - DISC
389 Chiswick High Road
London W4 4AL
United Kingdom

Dear Mr. Alcorta:

This letter extends the acknowledgement to ISO and IEC of the use of the following document as a normative reference: US National Geospatial-Intelligence Agency (NGA). Digital Aeronautical Flight Information File (DAFIF®) Specification [online]. Arnold (Missouri): NGA, Edition 8, April 2003, Effective Sept 2004. This document is available from World Wide Web:

<https://164.214.2.62/products/digitalaero/index.cfm>

The Reference Explanatory Report provided with this acknowledgement is for your records. Approval to incorporate the references specified in the RER are provided according to NGA release policies posted with the document on the World Wide Web and will be applied according to ISO directives in the following manner:

"The referenced document(s) are indispensable for the application of this international standard. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies."

Sincerely,

Enclosure
As stated
